## COMPLEX MODELING OF ELECTROCHEMICAL TREATMENT

A.O. Konkova

konkova@gmail.com

Bauman Moscow State Technical University, Moscow, Russian Federation

---

### Abstract

*The article examines a promising electrochemical method of shape-generating treatment of high-strength, heat-resistant, hard and ductile materials. In our research we separately show the stages of electrochemical process, as well as the model of these processes generally*

### Keywords

*Electrochemical treatment method, electrolysis, complex modeling*
